

GPT-2: 30 tokens

```
def f(x): ↵
```

Diagram illustrating a sequence of tokens (underscores, 'if', 'x', ':', and a left arrow) used in the context of the model.

Diagram illustrating a sequence of operations or states, likely representing a stack or memory structure. The sequence consists of 11 colored boxes (yellow, pink, blue) followed by a blue box containing the text "return" and a yellow box containing the number "1".

GPT-4: 12 tokens

```
def  $\sqcup$ f (x) :  $\Leftarrow$ 
```

```

    if x :

```

```

    return 1

```
