

Process supervision: each token is credited with the rewards of the steps ending at or after it

$$\tilde{r}_1 = +0.8$$

Step 1

$$\tilde{r}_2 = -0.3$$

Step 2

$$\tilde{r}_3 = +0.5$$

Step 3

token in Step 1 $\Rightarrow \hat{A} = \tilde{r}_1 + \tilde{r}_2 + \tilde{r}_3 = +1.0$

token in Step 3 $\Rightarrow \hat{A} = \tilde{r}_3 = +0.5$ (only steps at or after it count)
