

Forecasting IS supervised learning: sliding a window makes (X, y) rows

y(t-3)	y(t-2)	y(t-1)	y(t) = target
108	114	121	118
114	121	118	120
121	118	120	116
118	120	116	108
120	116	108	99
116	108	99	86
